# Efficient and effective communication.

Fax blasting remains the most efficient and effective method of communication to businesses, organizations and media. While postal mail is extremely expensive & time consuming and individual's email addresses come & go, company fax numbers rarely change. Fax blasting provides a reliable confirmation that your message has been delivered successfully to your support base.

Gone are the days of sending faxes one at a time, our fax blaster sends out thousands of faxes per hour — email your fax list content to us and our skilled team will set up your job and distribute your fax for you.

Canvas your news alerts and event reminders to businesses, organizations and the media. The more organized the campaign, the better the results. Leave no stone unturned with this easy time-saving solution.

## features

- mass fax blasting software with varied features
- non-peak time rates
- pay only for completed faxes
- thousands of faxes delivered per hour
- peak time options
- optional graphic design
