monthly contributions from your donors

**TECHNOLOGY THAT
IS EFFECTIVE AND AFFORDABLE.**

1.888.WEB.2WIN

Monthly contributions to reach your campaign goals.

Start a Monthly eDonor Program to help you reach your campaign financial goals. The monthly donor program keeps your donors involved in your campaign by allowing them to invest over time.

Your branded contribution page allows your donors to select their pledge amount, starting at \$25, and contribute directly via VISA, Mastercard, Discover and AMEX. For the budget conscious donor, offer an appropriate payment plan with our patent pending eDonor calculator. For the undecided, make recommendations to allow your donor to choose a customized program that appeals to them.

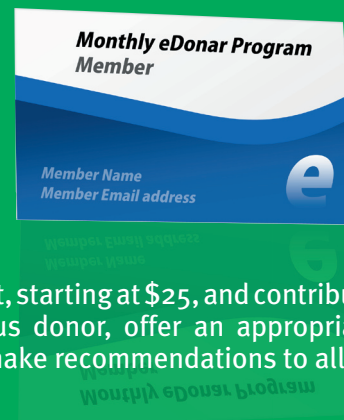

Updated compliance issues based on legislative changes are automatically sent to you and your donors will receive verifications that their previous donations are in compliance with federal and state laws.

Stay connected to your donor through emails, thanking them and confirming their initial contribution. Members can enjoy a personalized donor card thanking them for joining your eDonor club. Throughout the duration of your campaign, follow up with monthly emails updating donors of your success. Send monthly postcards and continue to thank and encourage donors to “spread the word” by inviting others to join the cause. To keep your campaign organized and up-to-date on all donors, collect important donor data with our SSL Encryption page.

*don't forget we also make fundraising widgets to fit on all your social networking sites
